Girls Education

By Jasmine and Caoimhe
Introduction

- Education is vital for all but some girls are still not being able to go to school

- We find it extremely unfair that they are not given the chance for a better life
Glossary

Taliban- An Islamic Fundamentalist, a major threat to some governments that is currently in war with Afghanistan

Illiterate- unable to read or write

Abused- use (something) to bad effect or for a bad purpose; misuse
Facts

- The Taliban have strong beliefs that girls should not go to school and if they do, they are in serious danger.
- There are 32 million less girls than boys in primary school.
- 65 million girls that are not in school.
- There are 31 million girls of primary school age that have no education.
- Two-thirds of the 792 million illiterate adults in the world are female.
What are the consequences for this way of living?

- Most girls dream of going to school
- They continue in the cycle of poverty
- Some of them will be abused
- They can be fighting disease
- They can be a slaves for the rest of their lives
Who has responsibilities for this issue and what are they?

- Everyone has responsibilities for this issue
- Some of the reasons: too expensive, too far to walk, violence, unhealthy, or married at an early age
- We can raise money to help them go to school
